MOTAO Fork Seal Savers

Our adjustable length design Fork Chock fork seal savers have by far out sold the non-adjustable plastic types in Australia. A unique adjustable length design allows for the widest range of bike applications available.

Constructed of 6061 Aluminum. Motao Fork Chocks are precision welded and incorporate a rubber top pad to prevent damage to fender. Motao Fork Chocks chock the front forks stiff when used with tie downs helping to prevent the forks from bouncing off tie downs during transport. Motao Fork Chocks help protect fork seals.

We now offer 5 types - Non-adjustable, 3 Pitch adjustable in 2 styles and a 5 pitch adjustable in 2 styles. Finished in anodized Aluminum, anodized Black or with a powdercoat in Black, Red, Blue or Orange. Sold Blister Clam Shell Pack or Poly bagged. Lifetime Limited Warranty. Made in China.
